The green add-on set for your MyRoads world!

After roads, buildings and street signs, nature is now moving into the *MyRoads* world. This additional set contains six different trees in various shapes and sizes that add more colour to the sustainable play world. The simple plug-in principle by Werkhaus allows the trees to stand solidly on their base and guarantees long-lasting play fun. Realistic and beautiful decoration made of recycled wood material for the children's room and the world of *MyRoads*! The perfect alternative to plastic trees!

Note: Natural products made of wood may show signs of wear and minor colour variations.
