Sustainable toy street fun for your child's room!

Welcome to MyRoads Bakery and Ice Cream Shop! The expansion set for the MyRoads play city focuses on two exciting places in our everyday lives: the bakery and the ice cream shop. In addition to an ice cream shop and a bakery with loading ramp, the 18-piece set also includes a green area, parking spaces, an exit and entrance as well as many lovely details for a realistic play experience.

The individual road and building parts in durable Werkhaus-quality offer countless combination possibilities with other toys as well as other starter, additional and expansion sets from MyRoads. The different sets offer children a limitless variety of ever new road variants and play worlds.

The road parts were sustainably produced in Germany and are made of wood material from responsible sources. Note: Natural products
